I want every woman to have a Beautiful Garden

There is no finer hobby for a woman than gardening

I believe there is no hobby so safe and sane for a woman as gardening. It centers about the home; the children and other members of the family may have a part in it; friends may enjoy it, and the influence of its sweetness and beauty reaches far and wide.

One need not be a great artist, a gardener of experience or a person of wealth or ease to indulge in and get something from gardening. As a hobby it gives you material accumulation in things of use and beauty—it creates things others admire and wish to see and have. It gives you inspiration, bodily rejuvenation and mental relaxation. And best of all, it gives you fun if it is practiced as a real hobby.

FREE GIFTS For You

1. With every order for flower seeds we will send you free packets of seeds. We will try to send you some different seeds than those you order so you will have a variety. These special gift packets are all special varieties we want you to try. **Free seeds are sent with seed orders only.**
2. On every order of plants, amounting to one dollar, you may select Free any plant priced at 20c or less listed in this catalog. No Free plants can be sent on orders for seeds only.

Read These Few Words About Reliable Seeds

From good seeds only can good crops be grown. Yet a great many contingencies may arise to prevent the best seeds from giving satisfaction, and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. Therefore, we do not warrant in any way, express or implied, the contents, or the description, quality, productiveness or any other matter of any seeds, bulbs, or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

We will appreciate receiving your order early this year.

Yours for success,
CHARLOTTE M. HAINES.

Everything you need is in this catalog

This new large catalog of mine contains everything you need in plants and seeds for making your garden and home. And you will find that there are many bargain offers which are truly wonderful values.

No one can afford not to grow flowers and enjoy their fragrance and beauty. A garden is not costly like a fine garment or piece of furniture. For a dollar or less you can have thousands of delightful blooms in your border and in bouquets the whole summer through. Look through these pages and order early so you can do your planting at just the right time.

Give Your Children Beautiful Surroundings

How will your children remember the home of their childhood? Will they think of it as a drab, unattractive place or will they think of it as the loveliest place they ever knew? This is all up to you. It takes more than love and shelter to make a lasting impression of beauty on a child's mind, for children respond to color and beauty just as do their fathers and mothers.

Make your home beautiful with trees, shrubs and plants and flowers and you can count on it as one of the greatest gifts you can make to your children. A yard with shade and flowers provides both school and playground for them. It spells many happy hours of play. It stimulates their imagination and increases their knowledge of nature and birds. In fact, it gives them a whole exciting new world.

Let the children have their own garden, plant their own seeds and learn nature's marvels in their own way. Their life will be forever enriched if you do this for them.

START RIGHT Use Haines Good Seeds and Plants

For a great many years I have specialized in recommending and furnishing those seeds and plants that I know will give satisfaction. I have built up my business on the idea that furnishing good seed and good plants will win for me an ever increasing circle of good friends. I have not been disappointed and I want all my readers to know I appreciate the confidence placed in me and the many orders I have received. This year I have a wonderful lot of good seeds and plants and I can assure you that if you want good seeds and plants to start with, you can get them here.

Seeds of Beautiful ANNUAL FLOWERS

HAINES NEWER AND BETTER ASTERS

New California Giant Aster

HAINES BEAUTIFUL ASTERS

Mammoth Branching

These magnificent blossoms are very large, often 5 to 6 inches across, and being carried on strong, well-leaved stems, 15 to 16 inches long, are unsurpassed as cut flowers for vases and home decorations. Bloom from the end of August until frost.

Snow White	Scarlet	Pink
Lavender	Purple	Mixed

Any of the above. Pkt. 8c; 1/8 oz. 35c; 1/2 oz. \$1.00.

New California Giants Aster

Huge Fluffy Blossoms Which Resemble Chrysanthemums Almost as Much as Asters

This new class of Asters is second to none in the world today. It is entirely distinct inasmuch as each flower is borne at the end of a long stout stem which is 18 to 24 inches long and has no lateral growths along its entire length. Another feature is their extended period of bloom, the plants remaining in flower much longer than any other Asters I know of. Flowers are unusually large and beautiful with petals tightly curled over the entire flower. My mixture contains many colors ranging from pure white to purple. Pkt. 10c; 1/8 oz. 40c; 1/2 oz. \$1.30; oz. \$2.45.

Haines Astermum

The Beauty of the Aster—the size of the Chrysanthemum. The Astermums differ from all other of their type in the larger size and greater profusion of their flowers, each plant bearing from 20 to 30 blossoms. These loose, airy heads, made up of very long, wavy, twisted petals, have a distinct feathery effect, resembling the finest Japanese Chrysanthemums. Plants grow 2 feet high. Mixed. Pkt. 10c; 1/8 oz. 39c; 1/2 oz. \$1.30; oz. \$2.50.

American Beauty

An Aster of upright and very robust growth, producing flowers of immense size, generally 4 to 5 inches across, which are borne on very heavy and very long stems, usually 2 feet in length. The flowers are fully double to the center.

Carmine—Pkt. 10c; 1/8 oz. 40c; 1/2 oz. \$1.44.
Purple—Pkt. 10c; 1/8 oz. 40c; 1/2 oz. \$1.44.
Lavender—Pkt. 10c; 1/8 oz. 40c; 1/2 oz. \$1.44.
September Pink—Pkt. 10c; 1/8 oz. 40c; 1/2 oz. \$1.44.
Mixed Colors—Pkt. 10c; 1/8 oz. 40c; 1/2 oz. \$1.44.

Haines Exceptional Aster Mixtures

HAINES SUPERFINE MIXED. An unusually fine mixture of many different forms and colors. Especially selected from the finest large sized, double-flowering types for those who are raising flowers for exhibition purposes. These flowers can be depended upon to be full double, no "yellow centers," and all are borne on long stems. Best and most brilliant colors. Pkt. 10c; 1/8 oz. 40c; oz. \$1.75.

GOOD MIXED. A splendid assortment of finest colors of leading varieties. For bedding and cut flowers this mixture is unexcelled. Pkt. 7c; 1/8 oz. 20c; oz. 90c.

SINGLE MIXED. Nearly 10 different colors and shades in this wonderful mixture. A bed of Single Asters in a mixture of colors is most beautiful. Pkt. 7c; 1/8 oz. 20c; oz. 90c.

Asters have long held a prominent place in our flower gardens, and with these newer varieties you may be sure of having the finest in your neighborhood.

One packet each of the five New Asters described below for only 45c.

SWANSDOWN—When you see an Aster nearly as large as a Peony, perfectly double, and of purest white color, you will have seen the Swansdown, as nearly perfect as Asters can be. The immense flowers are very double, with long, strong stems. Color is the purest white. Plants 2 1/2 feet high. Pkt. 10c.

MAIDEN'S BLUSH—Identical to Swansdown except in color, which is a soft apple blossom pink. Pkt. 10c.

HAINES EVERLASTING—A beautiful flower for winter bouquets. Entirely new. Blooms from July to September. Pick the flowers when three-fourths open, and hang them up with the heads down until dried. 2 feet high. Mixed colors. Pkt. 10c; 1/8 oz. 30c.

LAVENDER GEM—Large fluffy or feathery flowers of great beauty. The coloring is an exquisite silvery white changing to a delicate shade of lavender. Height about 18 in. Pkt. 10c; 1/8 oz. 35c; 1/2 oz. \$1.00.

SENSATION—The brightest colored Aster I have ever grown. In the new "Sensation," I have a color never seen in Asters, and a flower which is unequalled in quality, size and perfection of bloom. Color is the brightest red ever seen in an Aster, being deep ox-blood. Height is about 18 in., plants well branched, and completely covered with very double flowers, which are 4 in. in diameter. Stems are usually a foot long. Pkt. 10c; 1/8 oz. 40c.

Haines New Yellow

The form of the double flowers is a perfect ball; the quills are close together and of salmon yellow color. The border petals are broad and of a lighter tint, seeming to enclose the flower like an old-fashioned bouquet paper. The flowers are borne upon long, erect stems, excellent for cutting. The plants, about 2 feet high, are of compact, bushy growth and most abundant bloomers. Pkt. 10c; 1/8 oz. 48c.

Queen of the Market

The earliest Aster known, being two to three weeks ahead of most of the other sorts. Of dwarf branching habit; 18 inches high, double handsome flowers. Mixed colors. Pkt. 7c; 1/8 oz. 20c; oz. 99c.

ASTER

Indian Summer

This is the very newest in Asters and I am quoting the originator's description. A new Aster of distinctly Crego type with blooms measuring 4 1/2 to 5 inches in diameter. Its color is identical with the favorite continental color, cinnabar. The flowers are very double with attractively curled and twisted petals. Pkt. 10c.

*Hardy Perennial Asters

(Michaelmas Daisies.) Very beautiful, hardy plants for the border and among shrubbery. They form large, bushy clumps about 2 feet high and are covered with clusters of large, single flowers during the late summer, forming one of the charms of the autumn garden. They thrive in any good garden soil, and if sown early, they will flower the first season. Mixed colors. Pkt. 10c; 1/8 oz. 35c; 1/2 oz. \$1.00.

Haines Giant Ruffled Mastertierpiece Pansies

Rich Velvety Flowers of Large Size and Unusual Form. Beautiful and Striking Colors. Strong Bloomer Through a Long Season.

Pkt. 12c; 1/8 oz. 40c.

Haines Mammoth Butterfly Pansies

Mottled and Striped on a Dark Ground. The flowers are very large, while the colors are mainly those rich, wine-reds. Seeds of Beautiful ANNUAL FLOWERS

HAINES BEAUTIFUL PETUNIAS

New Petunia—Martha Washington

This is a ruffled and frilled variety of dwarf growth—about nine inches high—forming a perfect ball effect. The blooms are about three inches in diameter and literally smother the plant. The frilled portion of the flower is a beautiful blush pink and the center portion is strongly veined a rich wine red deepening in the throat, which is large, to dark violet. The veining is so unique that the blooms resemble a pelargonium. Pkt. 20c; 3 Pkts. for 50c.

Three New Petunias

One packet each of the three for only, 54c, postpaid

BLUE BEE. An outstanding variety and a wonderful variety to use in any location where Petunias are grown. Flowers are of medium size and of a rich dark blue color. There are so few worth while blue flowers that my new Blue Bee will be a welcome addition especially in the so popular "Blue Gardens." Pkt. 10c; 3 Pkts. for 25c.

DOUBLE ROSY MORN. Just what you have been waiting for—the true Rosy Morn color in a double flower. Flowers are of medium size semi-double with heavy petals folding back from the center. Almost resembles a Gardenia in shape, while the color is of course that unmatched shade of rose-pink. Pkt. 20c; 3 Pkts. for 50c.

THEODOSIA. So many have asked for this popular variety that I am now listing with my other "Better varieties." Large flowers of rosy-pink with clearly defined golden center with minute stripes. Flowers are heavily frilled or ruffled. Pkt. 15c; 3 Pkts. 40c.

Haines Fluffy Ruffles

Fluffy Ruffles

Beautiful Colors—Heavily Frilled and Ruffled—Large Size—Easy to Grow—Sure to Bloom

The originators of this wonderful strain of Petunias claim that the flowers will average 4 to 6 inches in diameter, but I am content in claiming a size of about 3 inches. However, the flowers are so heavily frilled that a blossom 3 inches in diameter is often 20 inches or more in circumference. Fluffy Ruffles commences to bloom very early, and continues in flower all through the summer until frosts kill the plant to the ground. Easily cultivated. All you need is a good soil and sunny location. Pkt. 15c.

Giants of California

A California Variety of Great Beauty, Size and Luxuriance

The flowers are of immense size, often measuring 5 to 6 inches across. The variety of colors, markings, veinings and blotchings distinguish them from all others. They are usually ruffled and fringed on the edges, and present a great variety of beautiful colors. With the exception of Haines Invincible Petunia, this is the finest Petunia ever grown. Equally desirable in the house or grown in beds out of doors. Seed is very fine and care must be used not to plant the seed too deep. Pkt. 15c; 2 Pkts. for 25c.

New Golden Rose

Brilliant Orange Rose Color, with a Lighter Shade of Yellow in the Throat

This unusual color surely deserves a place with the finest novelties, as it is entirely different from any I have ever grown or seen. The orange rose color is the same throughout the flower, except that the throat is a lighter shade of yellow. In size, it is about the same as the other out of doors bedding varieties, with which we are all familiar. Its color is its greatest charm, and I can confidently recommend it to all. Pkt. 10c; 1/8 oz. 60c.

Petunia Theodosia

Rose of Heaven

Rich Brilliant Rose Color with an Inconspicuous White Throat

A clear rosy pink flower of good size and very beautiful. The throat is nearly the same color as the petals, very few having the white throats so common in most pink Petunias. While not as large a flower as my wonderful Balcony Queen Petunias shown on page 19, they are much larger than the Rosy Morn, which we have all known and grown for many years. A bed of Rose of Heaven Petunias is unusually attractive, and as they remain in bloom all summer, gives a delightful touch of color to a yard that might otherwise be dull and dreary. Pkt. 10c; 1/8 oz. 48c; 1/2 oz. \$1.40.

Haines Mammoth Flowered Invincible

The Largest and Most Beautiful Petunia Ever Grown

An entirely new class—distinct from any others in the exquisite colorings, and in the general appearance of the flowers. These must be seen to be appreciated as all are fringed and fluted in every conceivable manner. This is without question the largest, prettiest and most wonderful Petunia ever grown. Equally desirable in pots in the house or grown in beds out of doors. Seed is very fine and care must be used not to plant the seed too deep. The colors are startlingly brilliant—some solid colors, but mostly a combination of colors never seen before in one flower. All of my seed is hand picked, and selected from the largest and heaviest frilled flowers showing the finest colorings. Pkt. 15c; 4 Pkts. 50c.

World Beauty Petunia

New Double Pink Fringed

It produces large double fringed flowers of the most beautiful rosy carmine color, plants of dwarf compact growth which makes this grand new sort particularly desirable for pot plants as well as bedding. Petunia growers will, we believe, do well to culture "World Beauty" in a large way. Packet 25c.

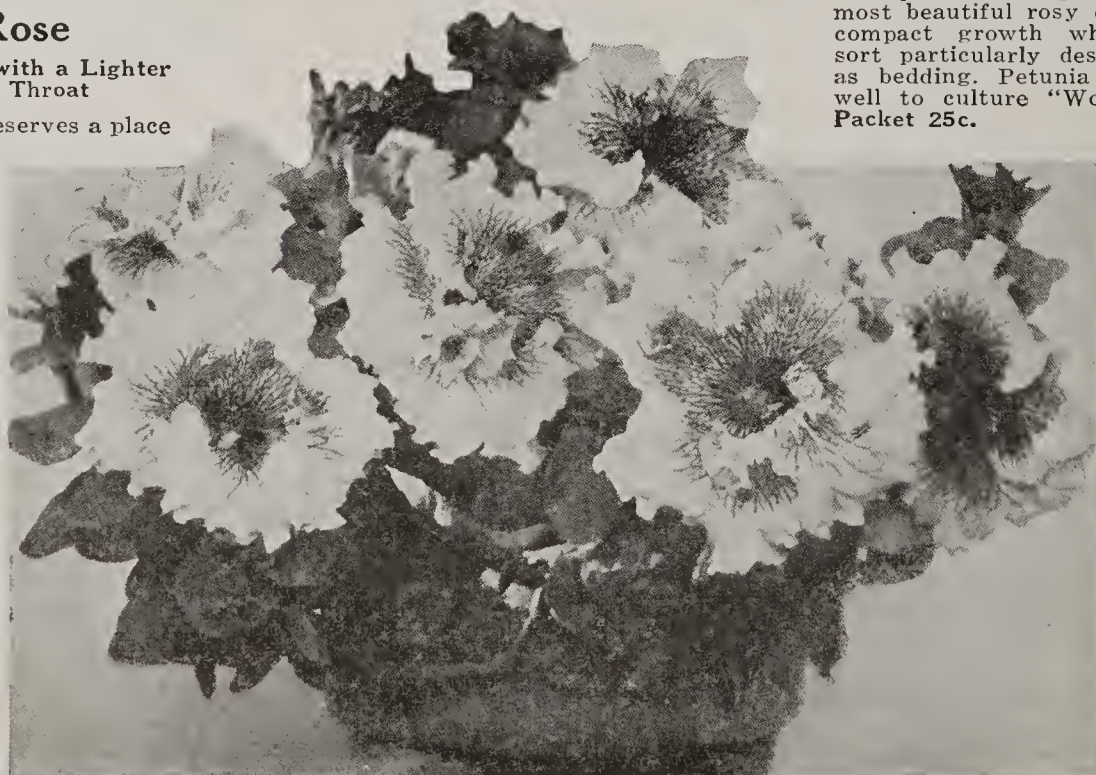

Mammoth Invincible

Star of California

Velvety Purple Shaded Crimson, with a Star-Shaped White Blotch

This is an outstanding variety of the Balcony type, but with the size and beauty of the California Giants. For window boxes, hanging baskets, and vases, this is what you have been waiting for. The stems are almost completely covered with rich purplish flowers, which are glorified with a sheen of crimson; but the crowning feature is the pure white star in the form of a blotch in the throat of each blossom. The branches are extra long, and hang over the edge of the box or vase, presenting a beautiful appearance. Pkt. 12c.

Beautiful New Varieties Which Should Be in Every Garden

Giant Snapdragons have become immensely popular in the last few years. This is not to be wondered at, as there are few flowers which for gorgeous coloring can match this Snapdragon and are as valuable for cut flowers as for show in the garden. Spring sown seed outdoors produces flowering plants in July, remaining in bloom until frost. For earlier flowering, start indoors and transplant when weather is suitable. Their ease of culture, independence of heat and drought, continuous blooming qualities, and their magnificent, bright colors should entitle these Snapdragons to a place in every garden.

The color of this large, flowering Sweet Pea is a solid, rich, deep blue. It does not fade out on the edges. The flowers are produced in clusters of four on long stems. Pkt. 25c.

Sweet Pea Culture

Hardy Annual. The soil for Sweet Peas should be made rich and mellow by digging it 2 feet deep and incorporating with it old, rotted and pulverized manure. Soils which are at all heavy are best dug in Fall and during the early Spring before the seed is sown. Hardwood ashes and air-slaked lime should be worked into the upper 6 inches of soil. A sunny situation is the best, with the rows running, if possible, North and South and fully exposed to the sunlight and air on both sides. The seed should be sown as soon as the frost is out of the ground; earliness in sowing is most essential; the object being to have as long a spell of cool weather as possible after sowing.

Sweet peas are usually grown in double rows, with a wire netting or a row of brush between. For each row make a trench or furrow about 6 inches deep and 9 to 10 inches apart. Sow seed plentifully in the bottom of the trenches and cover with about one inch of soil, pressing down firmly; and by degrees, as the vines grow up, fill the trenches with soil and thin out to about 2 to 3 inches apart.

New Verbena Nana Erecta Violet Bouquet

This new variety produces a plant eight inches high and eight inches in diameter. The color of the flower when it first opens is a deep violet tinged with garnet, changing to deep violet as the flower gets older. The eye is cream, making a rich color combination. The diameter of the flower head is two and a half to three inches and the individual florets are three-fourths inch in diameter. This charming variety has a very long blooming season and is strictly nana erecta type. It is very symmetrical in appearance and has from twenty to thirty trusses of flowers blooming at the same time. Pkt. 15c; 2 Pkts. 25c.

How to Transplant Annuals

When the seedlings crowd each other it is time to transplant. Water soil about plants several hours before transplanting. Move the seedlings on a dull day, or if sun is shining, cover with newspaper or flower pot after replanting so that tops will not dry out. Shorten the tops and water well.

Wonderful Weather Plant

The Unique Floral
Barometer

If the leaves stand upward from the twig, the weather will be beautiful. If they stand out straight, changeable weather is expected. As the leaves droop, the indications range toward rain, when the leaves hang straight downward, water may be expected to fall in torrents. A local storm is indicated by the curling together of the leaves, and a fog by the bending of the twigs. Seeds are of good size and sometimes slow to germinate; should be soaked in lukewarm water before planting. Pkt., 10c; 1/4 oz., 25c; oz. 75c.

HAINES New Dahlia Flowered ZINNIAS

Monstrous Flowers; Wonderful Colors; Continuous Bloomers

Zinnia---Haines Giant Balloon Flowered

Large Double Flowers of Unequalled Colors and Beauty

An entirely new class of Zinnias, giant in size, measuring 4 to 5 inches across and perfectly double flowers, of richest, most varied colors and shades. Few flowers are more easily grown or bloom more abundantly throughout the season, and the wide range of color is no less remarkable than their unusual depth and richness. Plants grow 3 feet high. There is much satisfaction in a bed of Zinnias with their twisted and recurved petaled flowers in many bright colors and when nearly every other flower has been killed by frost this plant is still in full bloom. Pkt. 10c; 1/4 oz. 25c; oz. 75c.

Collection

One pkt. each of the six separate varieties of Dahlia Flowered Zinnias. **60c**

MIXED COLORS. Those whose gardens are not large enough to grow the separate colors will find in this mixture a fine assortment of colors. Pkt. 12c; 1/8 oz. 40c.

ZINNIA**Victory Quilled or Cactus Flowered**

Attractive Petals so Tightly Curled as to Resemble Quills

It is distinct from all other Zinnias by the shape of its petals which are tubular at the base and expand towards the tip, displaying a rich variety of color. On the reverse side of the petals the color runs into a softer tint, making a beautiful combination. All colors mixed. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

Monarch
Dahlia Flowered Zinnia

The plants are strong, vigorous habit, fully 3 feet high, producing mammoth flowers averaging 6 inches across by 3 to 4 inches deep, similar in shape to the Double Decorative Dahlias.

EXQUISITE. Light rose color with a deeper colored center; the flowers resemble a dahlia in form and size. This is one of the most attractive colors grown. Pkt. 12c; 1/8 oz. 40c.

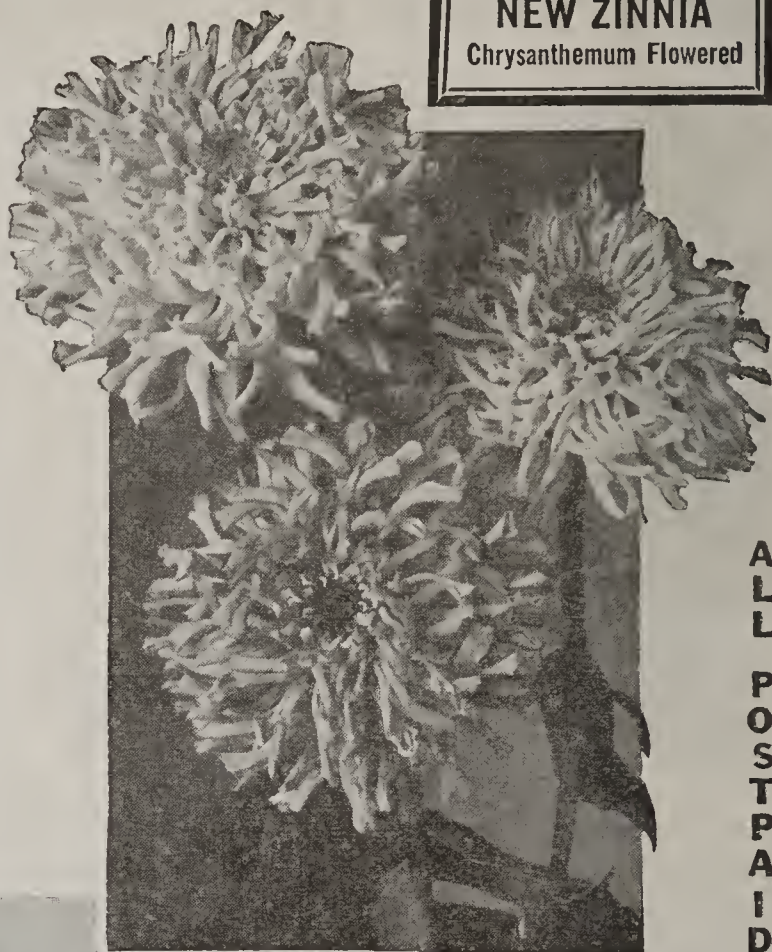

GOLDEN DAWN. (New.) An attractive and beautiful golden yellow of good shape and largest size. Everyone admired it in my gardens last summer. Pkt. 12c; 1/8 oz. 40c.

MONARCH. The largest and best of the red shades. Plants are strong growers, and are covered with beautiful large flowers throughout the season. Pkt. 12c; 1/8 oz. 40c.

POLAR BEAR. A large pure white. True form and one of the best. This always comes the true dahlia flowered and is the finest white Zinnia I have ever seen. Pkt. 12c; 1/8 oz. 40c.

ILLUMINATION. (New.) A deep rose color. Does not burn or fade. Lasts well when cut. Pkt. 12c; 1/8 oz. 40c.

Zinnia Fantasy

Zinnia—Fantasy

Here is a really different flower that you will surely want in your new garden. Instead of the stiff formal petals which I find in most Zinnias, this has informal, shaggy, graceful flower heads which are most interesting. Beautiful in the garden and a lovely cut flower. Finest mixed colors. Pkt. 20c; 2 Pkts. 35c.

New Picotee

Every Petal Beautifully Tipped

A remarkable and beautiful new type of Zinnias developed in California. The flowers are always of the largest size, measuring 4 to 6 inches in diameter. The blooms come in many bright colors—pink, light and rich yellow, orange, etc., and all are tipped rich mahogany brown on the end of each petal. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

Mexican or New Star

An Unusual Variety of Single Star Shaped Flower

This new and beautiful flower is the only Zinnia ever grown which comes absolutely single and when open shows the true star shape. It is peculiar in its construction; not double, not single—as the word is usually interpreted—nor yet could it be called crested. It must be seen to be appreciated. Flowers are of good size, usually 2 inches in diameter and of good intense colors. Nearly every color known is there from crimson to white, besides color combinations. Petals are rich and velvety, and appear almost artificial in their perfection. Plants are dwarf, and hold the flower stem erect, presenting a beautiful appearance. Pkt. 8c; 1/8 oz. 24c; 1/2 oz. 75c.

Haines California Giants Zinnias

Fully as large as the Dahlia Flowered, they are of the true Zinnia type, flat without the conical center, being nearly a solid face with loosely placed petals. I have grown flowers fully 5 inches in diameter. Plants are of robust habit, attaining a height of about 3 feet, and should be given 18 to 24 inches between each to allow for full development; they bear numerous semi-globular mostly very double flowers on long, strong stems, all of the largest size, making them of great value in large beds, borders, etc.; grown under favorable conditions they remain in bloom from early summer to late autumn. I offer the colors separately, as well as a splendid mixture of many colors.

LEMON QUEEN. This is of immense size, color light canary on the upper and cerise on the lower side. It is also unique inasmuch as it carries a pleasant odor. Pkt. 10c; 1/8 oz. 39c.

ORANGE KING. This is a striking shade and can be compared favorably with the color of the Calendula from which it takes its name. Pkt. 10c; 1/8 oz. 39c.

PURITY. Like the Dahlia Flowered Polar Bear, this is a clear white. It has lost the greenish tint that has made white Zinnias unpopular in the past. Pkt. 10c; 1/8 oz. 39c.

ROSE QUEEN. This flower opens first as bright rose with a deep rose red center and gradually develops into a warm deep rose when in full bloom. Pkt. 10c; 1/8 oz. 39c.

Collection

One packet each of the four colors described above for only.....

35c

MIXED. The above four colors mixed in equal proportion makes a splendid show of bright colors. Pkt. 10c; 1/8 oz. 39c; 1/2 oz. \$1.00.

How to Have a Beautiful Lawn

Our lawn grass seed produces a perfect and enduring lawn for luxuriant richness, with closely interwoven, firm, deep and elastic turf, is generally ready for mowing in six weeks from time of sowing and is composed of a thoroughly balanced combination of native and foreign fine-leaved, deep-rooting grasses of interweaving habit, that flourish under varied conditions, soils and climates, growing during different seasons of the year, so that a deep green, smooth and velvety sward free from clumps is maintained from snow to snow without burning brown in the hot months of summer. A lawn may be established either by "sodding" or "seeding." The latter is not only much less expensive but much more satisfactory, as better grasses can thus be obtained, and the quality and variety of the grasses have a great deal to do with appearance and the permanency of the lawn.

Without question, it is one of the most favorite and profitable garden crops; and makes a return early in the Spring before any other out-door crop can be marketed, and when a bed is thoroughly established will yield splendid crops for a number of years.

Lady Washington Geraniums or Pelargoniums

Always in Bloom, Summer, Fall or Winter

A valuable class of house and garden plants related to the Geraniums, resembling them closely in character, habit and treatment. Pelargoniums revel in hot sunlight, withstanding temperature and glare that would shrivel other flowers. All they ask is plenty of water. They do not grow as dense or compact as Geraniums, consequently it is advisable to pinch back the long shoots once or twice prior to their blooming season in April, thus ensuring a nicely rounded, bushy shape.

MARTHA WASHINGTON—Colors are variegated, ranging from crimson with dark blotch, to pure white spotted, while many of them are heavily ruffled. 25c each; 3 for 70c, postpaid.

EASTER GREETINGS—A New Ever-blooming Variety. Flowers large and free; bright amaranth red, each petal marked with a large black blotch. This variety is distinct from the rest, and remarkable on account of its long blooming season, producing its prime crop very early in spring and continuing throughout the Summer and Fall. 25c each; 3 for 70c, postpaid.

SCHWAUBEN MAID—Intense rich crimson, single flowers of extra size. 25c each; 3 for 70c, postpaid.

Philodendron

"The Wonder Vine"; Also Known as Devil's Ivy

We cannot say too much in praise on the value of this vine for use in fern dishes, wall pockets, baskets or any place where anything else will not thrive. It is by far the best plant for use in the home as under-watering, over-watering or any adverse conditions will little affect it. For fern dishes, plant a sufficient quantity in dish and pin the vine to the soil with greening pins and it will root at every joint and form a compact mass of green heart-shaped leaves. Give it a trial and see for yourself. Everyone knows the value of English Ivy in the home, yet the Philodendron surpasses it by far. Price, 35c each; 3 for \$1.00, postpaid.

The color suggests a rich cameo pink with faint blue eye. The color effect created by a well grown plant is exquisite and never before seen in Phlox.

The clearness of tone is remarkable, the brilliancy is so pronounced that immediate attention is given to this wonderful plant. The blooms do not fade or lose any of their rich pink tone as the flower ages; there never are any so-called purple tones visible.

Out of the leaf joints grow numerous laterals which continue the display of blooms long after the main flowerhead has disappeared. Several weeks longer blooming than is the case with other Phlox is the result. Price, 50c each; 3 for \$1.25, postpaid.

Rose Growing Made Easy

Don't Bother with Budding or Grafting. Briar is Always a Nuisance.

With roses on their own roots, there is never any of this trouble. Should the bush be cut down by frost at any time and the roots not harmed, real rosewood is again produced in the spring. On the other hand, many amateurs have set out to plant a rose bed and secured the best of budded stock but in a year or two have had only briars for their trouble. All our roses are grown on their own roots.

Chinese Wistaria

Wistaria

CHINESE—One of the most elegant and rapid-growing hardy climbing plants; attains an immense size, growing at the rate of 15 to 20 feet in a single season. Bears an abundance of long, pendulous clusters of purple-lilac flowers in May and June and again in Autumn. Price, large 2-year-old plants, 50c each, postpaid.

Ampelopsis

VEITCHII (Boston or Japan Ivy)—The fashionable and most hardy wall climber of the day. Clings tightly to rock, brick, etc., and it is a wall of living green the Summer through, turning in Autumn to a flaming crimson, when it is certainly gorgeous. It stands the dust and dry air of cities admirably. Strong plants 20c each; 3 for 50c, postpaid.

ENGLEMAN'S IVY (Englemanii)—A desirable variety with clinging tendrils by which it will climb walls or trees and cling as close as the Boston Ivy. The foliage resembles Quincefolia, but is more dense. Strong plants, each 20c; 3 for 50c, postpaid.

Large Flowering CLEMATIS

The Clematis we offer this season are extremely fine, strong 2-year-old plants. Many failures in the growing of Clematis are the result of too shallow planting. The crown of the roots should be set at least 3 inches below the surface of the soil. On account of the brittleness of the bark on Clematis, it cracks very easily, which, however, does not harm it in the least.

Mad. Edouard Andre Clematis

Very Attractive—Bright Red—In Bloom for a Long Time

An entirely distinct, and most novel variety, and the nearest approach to a red ever sent out. Thousands of flowers produced on a single specimen plant. Fine 2-year-old field grown roots, 90c each, postpaid.

Improved Jackmanii Clematis

Rich, Velvety, Purple Flowers—In Bloom All Summer

A perfect beauty; 5,000 blossoms have been counted on a single specimen plant. Jackmanii is of rapid growth, early, abundant and continuous bloomer. Perfectly hardy and adapted to all kinds of culture. In flower from middle of June to middle of October. The blossoms are of large size, intense royal velvety-purple when in full bloom, varying through all the exquisite shades of violet; 6 inches across, richly veined and handsomely shaded. Fine 2-year-old field grown roots, 90c each, postpaid.

Henryii—The Large Flowered White Clematis

Very Unusual—As Large as the Largest, and Pure White

The newest and one of the best of all the Clematis. We have always had large flowered varieties, but not in Whites. The vine is a strong grower and is covered throughout the season with fine, large, creamy white flowers. The very best of the white varieties, a perpetual bloomer. Fine 2-year-old field grown roots, 90c each, postpaid.

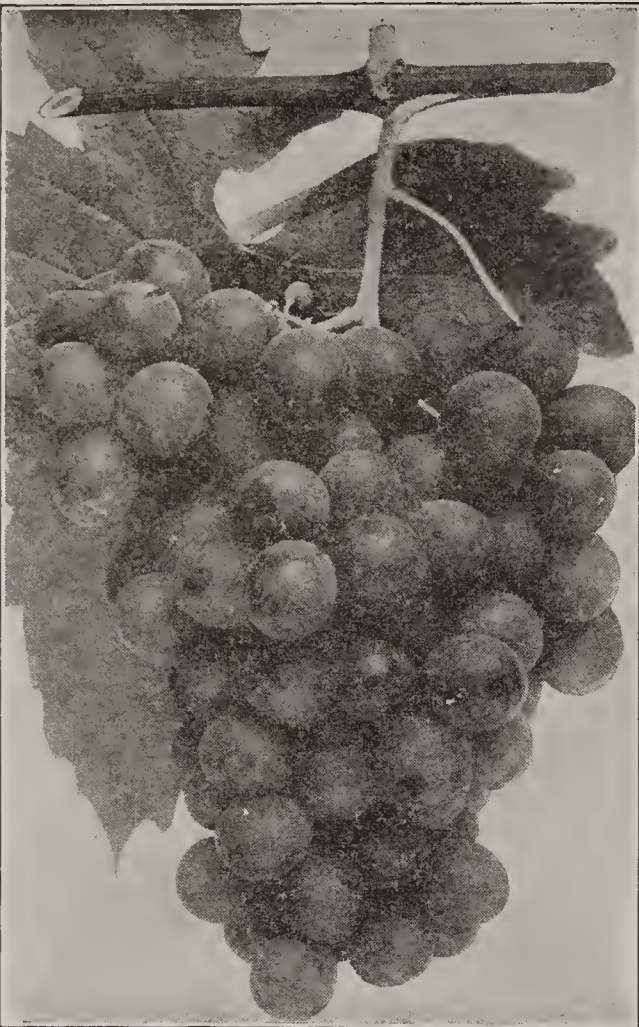

Paniculata—Sweet Scented Clematis

Fragrant and Beautiful—Rapid Grower—Charming Small White Flowers

Of rapid growth, quickly covering trellises and arbors with handsome, clean, glossy green foliage. Flowers of medium size, pure white, borne in immense sheets; of a most delicious and penetrating flavor. Strong roots, 25c, postpaid

Keep copies of orders with dates. If you write, send a copy. This insures quick attention.

STRAWBERRIES

NOTICE—All varieties marked (S) are Staminate Perfect Flowering and Bi-Sexual varieties. All varieties marked (P) are Pistillate and destitute of Stamens. Therefore when planting varieties marked (P) it will be necessary to have every third row a Perfect Flowering or (S) variety to properly fertilize the bed; much finer fruit will be obtained by so doing.
For example—If your order calls for 200 Great Ruby (P) you should also have 100 Great Northern (S) to properly fertilize the bed. Plant the first two rows with Great Ruby (P) and the third row with Great Northern (S) and so on; or you can use any other (P) and (S) varieties in the same manner.

MONEY IN STRAWBERRIES

A strawberry Bed is a safe and sure investment. Greatest of all Money Makers. \$600.00 profit per acre. Only one expense—the cost of plants, which is merely nominal—lasts for years.

Everbearing or Fall-Bearing Strawberry

A dish of luscious strawberries in the fall is a luxury which everyone who owns a garden could enjoy. Plant at least twenty-five plants, but if you can spare the room plant 100 or more. Keep all blooms picked off in the spring and do not allow the plants to bear regular crops in June, thus conserving their strength for the fall crop.

Strawberry Plant Orders

will be shipped direct from our Strawberry Farms and cannot be shipped with other goods. Send your orders in early and they will be filled in rotation just as early in the spring as possible.

WHEN WE SHIP STRAWBERRY PLANTS—In this locality Field Grown Strawberry plants are ready for shipment in April. We can also make fall shipments if desired. We ship Strawberry Plants during the months of March, April, May, October and November only. Be sure to state exact date you want your plants shipped when ordering. Otherwise we will use our best judgment.

PLANT SHIPMENTS—I always recommend having plants sent by Express, when there is an Express Office near, as I can usually send somewhat larger plants, and do not have to wash the soil off the roots (as in the case when sent by Mail). Kindly write your list of plants, bulbs and roots all together (not mixed up with the seeds) so as to prevent any mistake upon the part of our clerks in copying the order. *I do not ship plants to Canada and foreign countries.*
